

Keller minimal windows® **pivot**

The exclusive pivoting door

This highlight of the Keller minimal windows® product range enables an additional opening variant in the almost frameless design.

Keller minimal windows® **pivot** is an inwardly or outwardly opening pivoted door leaf. The awe-inspiring door construction is available in very large sizes and gives your house an impressive look.

Keller minimal windows® pivot

Where installation space is tight, the specially developed, high-precision rotary leaf hardware allows many different adjustment options for positioning the rotary leaf axis. The exclusive door bearing enables even large and heavy door

constructions to be moved without effort. The noble pivoted door gives the upmarket entrance area a new focal point and is the elegant solution for large doors in architecturally sophisticated living spaces.

TECHNICAL CHARACTERISTICS

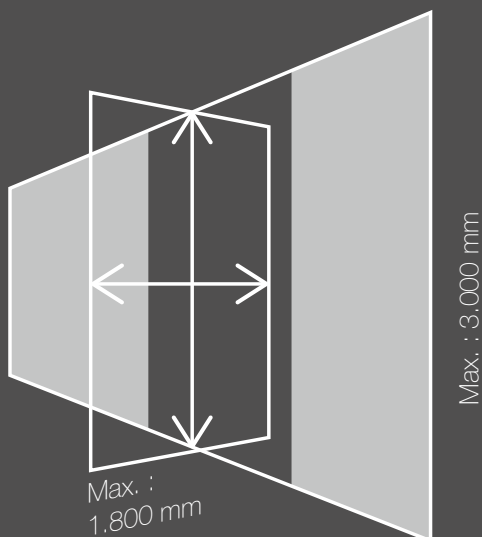

- Distance rotary leaf axis <> stop:
From 150 mm to ½ leaf width
- Locking in 90° open position: yes
